SHIPYARD

Shipbuilding, conversions and ship repair.

SYM
NAVAL

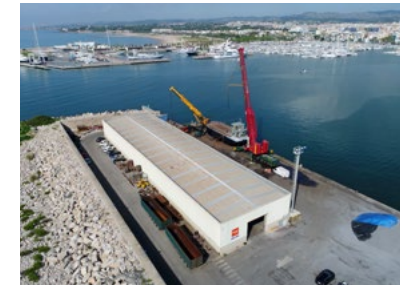

Ship repair based on quality technical solutions.

SHIPYARD AND NAVAL WORKSHOP

Own bases in the Mediterranean and the Caribbean.

A PROFESSIONAL TEAM

Participation in the repair planning and execution.

SYM Naval.
Shipyard in Vilanova (Barcelona)

The **SYM Naval** team has been in the **shipbuilding industry** for over 25 years, **carrying out conversions** and **repair activities** for shipowners across the world. We offer quality technical solutions at the service of shipowners and are prepared to take on the new challenges of naval engineering.

We are specialists in ship repair and maintenance and assist vessels around the world.

Our work centers are strategically located in the **Mediterranean** and the **Caribbean**.

We have a highly prepared team to face any type of need.

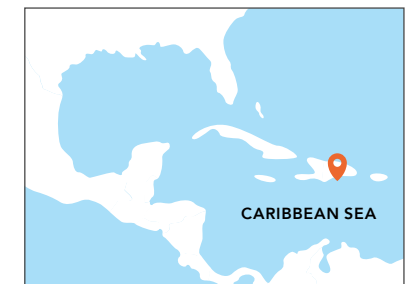

We have the necessary experience and are specialized in offering technical **assistance to cruise ships and merchant ships** in any situation.

Through our mobile working teams (*riding squads*), we can reach anywhere to carry out **repair tasks while the ship is sailing, afloat or in dry dock**.

We have specialists in a wide array of areas, which allows us to cater to the varied needs for assistance required by the vessel under repair.

We integrate with the ship's crew to achieve minimum impact on the ship's operation.

SYM NAVAL

Experts in ship repair.

PROJECT MANAGEMENT

An expert team of professionals in the sector to serve vessels in any sea or port. Own bases in the Mediterranean and the Caribbean.

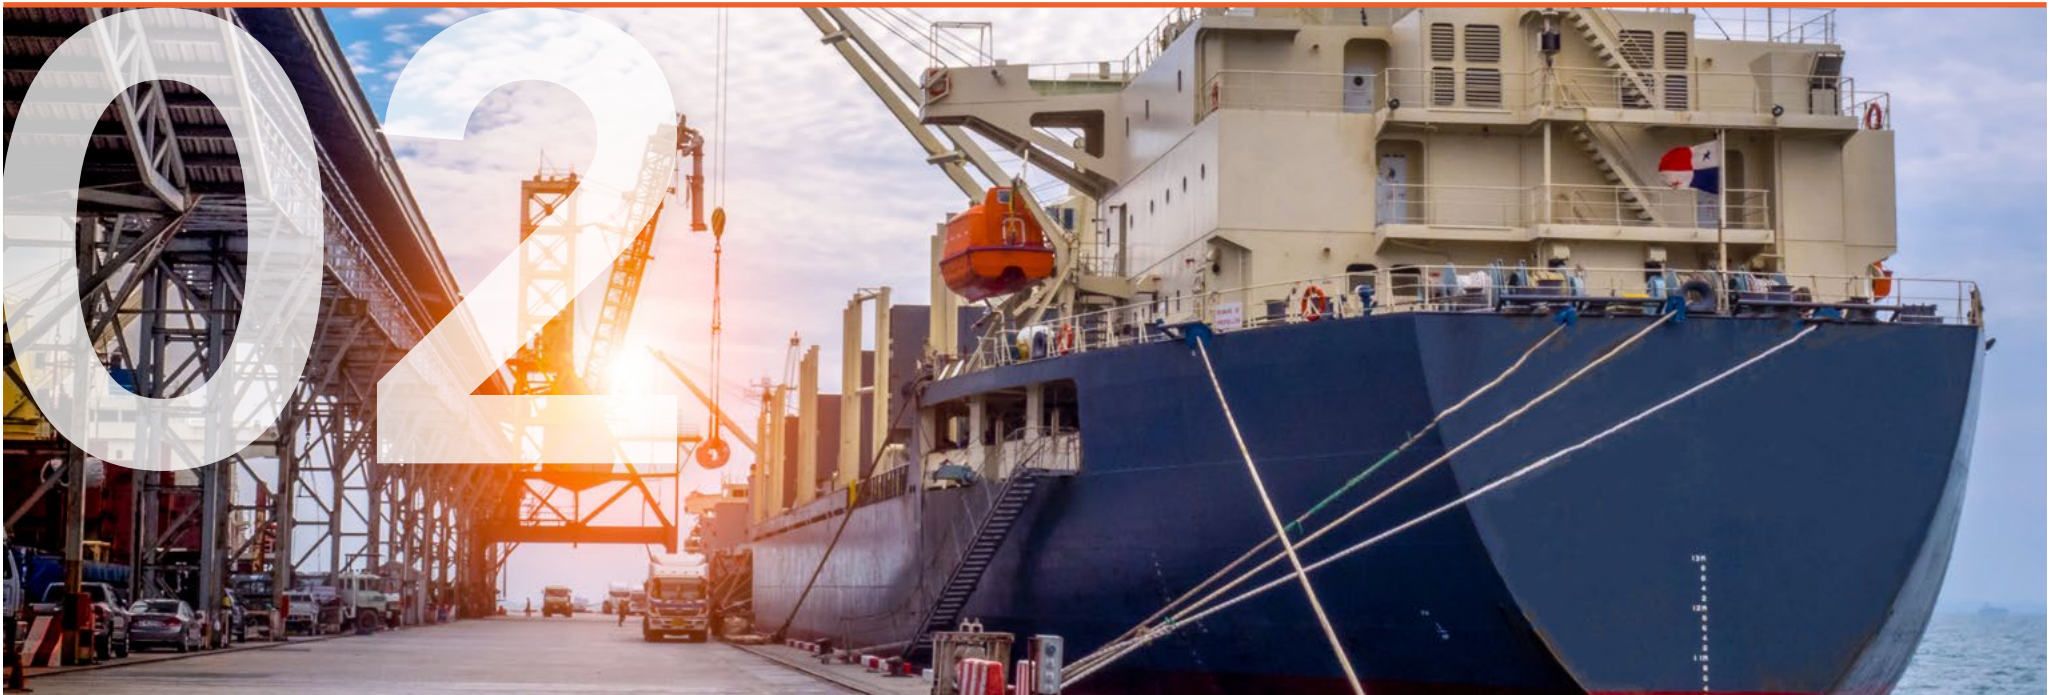

AVAILABILITY 24 HOURS A DAY, 365
DAYS A YEAR SERVING VESSELS
ACROSS THE WORLD.

OFFSHORE REPAIRS

Mobile team with worldwide coverage.

We work for the most prominent maritime operators worldwide. We are specialized in on-site repairs, and have subsequently managed to become the expert and professional business partner that shipowners need, due to our prompt and effective response to day-to-day challenges.

Through our mobile working team, we offer technical assistance to cruise and merchant ships located anywhere in the world, thus allowing the vessel not to interrupt its planning.

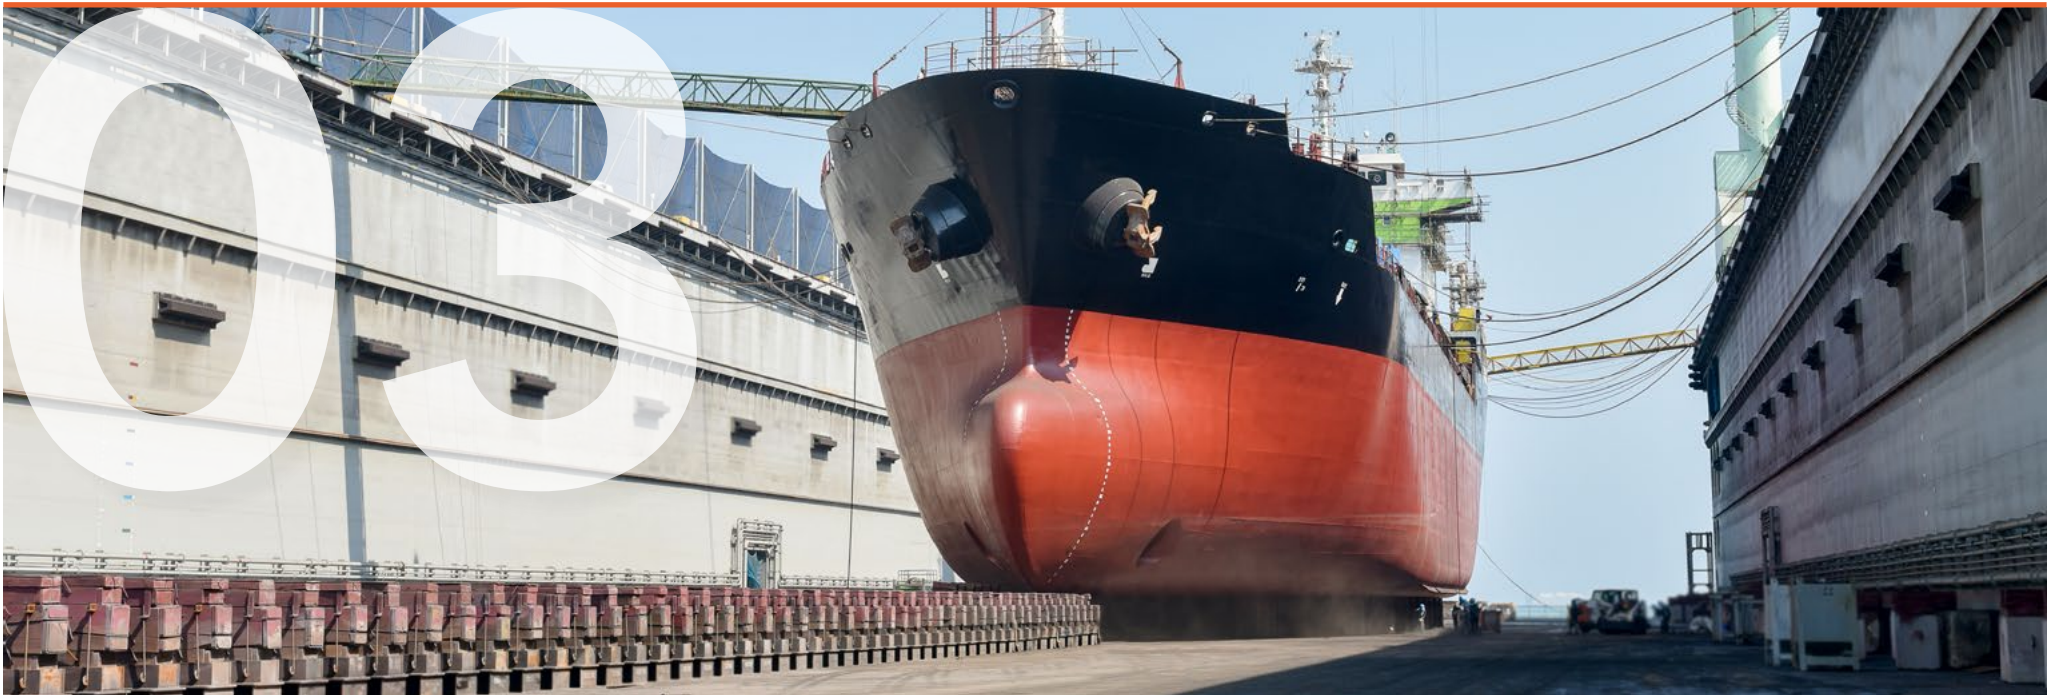

EFFICIENCY IN THE WORK AND
REPAIR TIME REDUCTION.

REPAIRS IN PORT

Emergency work and Wet Docking.

Our operations team is prepared to carry out afloat repair work, emergency and afloat repairs of technical stop or wet docking. In our facilities or in the areas of influence of our international bases.

The repair and maintenance tasks of cruise ships and merchant ships afloat are always carried out with maximum efficiency in order to minimize the ship's time in port.

WE SERVE ALL KINDS OF VESSELS
THROUGH MOBILE TEAMS.
SHIPYARD AND WORKSHOP IN THE
MEDITERRANEAN AND THE CARIBBEAN.
HIGHLY QUALIFIED HUMAN TEAM.

DOCK REPAIRS

Mobile team service and Riding Squads.

One of our main objectives is to minimize the impact of any incident through a quick repair on the vessel. To that end, we assist the shipowner during the stranding of the vessel in the shipyard.

We have a professional team specialized in electrical, steel, hydraulic, pipeline and mechanical repairs. In addition, we also carry out welding work on steel, hull maintenance, painting and anti-corrosion treatments.

CONVERSION, MAINTENANCE AND TECHNICAL ASSISTANCE

Adapted to the shipowner needs.

BALLAST WATER TREATMENT

Treatment of ballast water on board ships is an essential method to reduce its **environmental impact**. To that end, we offer the design and installation of the Ballast Water Treatment System (BWTS) and other filtration solutions with the maximum guarantee and confidence, taking into account the International Convention for the control and management of ballast water.

OWN ENGINEERING DEPARTMENT
TO RESPOND THE SHIPOWNER
CHALLENGES.

BAGS FOR LOAD TESTS

We offer solutions for **weight control** and **crane certifications** by means of water bags built with high resistance material suitable to support up to 120 tons. We have a wide variety of sizes with different load capacities according to the requirements of each project.

REFERENCES IN THE NAVAL INDUSTRY

Sym Naval has provided its services to more than 200 clients.
